

Mastermind Groups Information

Mastermind Groups are individuals who meet on a regular basis, to offer support and encouragement to participants. It's an opportunity to discuss challenges and accomplishments in your business, a place where you can set goals and be held accountable for your progress. Conversation and discussion is candid and confidential. It's a chance to "find out more" about each other.

Participation in a Mastermind Group is a benefit of membership in HBWE. Currently, there are two active Mastermind Groups meeting on a regular basis. Size of the group is limited to five participants.
